

SECURE YOUR DIGITAL WORLD

CHOOSE THE LEADING DIGITAL RISK PROTECTION PLATFORM

82% of organizations will experience at least one data breach during their digital transformation process.¹ Proof that traditional solutions are incomplete. You need a Digital Risk Protection Platform designed for today's challenges, not yesterday's.

Be proactive

at detecting and resolving external threats.

Stay efficient

by managing only true positives.

Safeguard

your brand and business.

“With CybelAngel, we establish a new border of detection outside of our architecture, encompassing the world of our partners and suppliers, where we can't, by design, take control of their security.”

Jean-Yves Poichotte
Global Head of IS Security, Sanofi

KEY FEATURES

30,000

newly exposed files detected every second. High-speed deep scan of the web.

99.5%

of alerts automatically discarded before reaching Cyber-Analysts. Robust Machine Learning models.

every incident report you receive is relevant thanks to your dedicated CybelAngel analyst.

KEY BENEFITS

100M+

Protect what matters most. Focus on those \$100M+ incidents.

0 FTE

Conserve your resources. Zero additional FTE are required.

Regain immediate visibility and control over what's outside your corporate network.
