WHY CYBELANGEL

360° coverage

From asset inventory to the dark web: every external attack vector, on one platform.

AI-driven intelligence

Every alert contextualized and prioritized, powered by AI, so your team acts on what matters.

Active & passive testing

Continuous monitoring plus active testing: our exposure-management edge.

Analyst-grade support

Backed by CybelAngel experts, from onboarding to a fully managed service.

ONE PLATFORM, THE FULL EXTERNAL RISK LIFECYCLE

01

IDENTIFY

Am I exposed without knowing it?

02

DISCOVER

Has my data been leaked, my brand impersonated, or are third-party suppliers weakening my defense?

03

ANTICIPATE

Am I about to be attacked?

04

MOBILIZE

Can I test my weak spots and react fast?

What is included, package by package

Every package covers the full external threat landscape. What changes is the depth of analysis, the scanning frequency, and the level of expert support behind it.
